

HOO-HOO HOUSE MASS OF RUNS

Fire Threatened Many Other
World's Fair Buildings.

NARROW ESCAPE FROM DEATH

OCCUPANTS WERE RESCUED
WITH DIFFICULTY.

St. Louis, Mo., June 24.—Fire which threatened for a time to destroy many buildings at the World's fair today consumed the house of Hoo-Hoo, rendering a total loss. So quickly did the flames spread after the fire started that the occupants of the building, five in number, all on the second floor, had difficulty in escaping with their lives.

The loss on the building and contents is estimated at \$10,000. The fire is supposed to have started from an electric light wire.

The fire department responded promptly, but the rapid spreading of the flames rendered their attempts to extinguish the fire valueless, and all effort was directed toward saving the lives of the occupants. Men and women, all of which were threatened with destruction on account of flying shingles. All were saved without damage.

But ten minutes before the alarm from the house of Hoo-Hoo, the World's fair fire department had answered a still alarm from the mysterious fire which broke out in the Phoenix. The fire was insignificant, but there was a wild stampede of elephants and camels, the frightened trumpeting of the former awakening people on all parts of the ground. None of the animals escaped from the building.

The house of Hoo-Hoo was one of the first buildings finished for the exposition. It was erected by the lumbermen of the United States, but under the control of the local board of the order of Hoo-Hoo. It was divided into many rooms, constructed of different kinds of fine and expensive lumber. Aside from this there were specimens of rare woods, which were valued highly.

There were thirty black cats in the building at the time of the fire and these perished.

Fearing the Texas building would be destroyed women of that state worked heroically to save precious relics of early history. These were torn from beds in the building and used to carry the relics to places of greater safety.

One point of the star-shaped building of Texas is within seventy-five feet of the house of Hoo-Hoo and in the large first floor room of this point the relics have been on exhibition. These include pictures, books, papers and various articles identified with the early history of the state and are priceless. Nothing but the fact that the wind was not blowing toward the Texas building saved it.

"Go West,"

Ratch it and rough it and you'll soon get rid of that weak chest and that lugging cough. That is what the doctor said to a young married man with a wife and child to care for and a modest salary to support them on. He couldn't go West. Love and duty tied him to his desk in the city.

People don't have to travel to cure coughs or strengthen weak lungs. Dr. Pierce's Golden Medical Discovery cures obstinate, deep-seated coughs, bronchitis, bleeding of the lungs, weakness, emaciation and other forms of disease which if neglected or unskillfully treated terminate fatally in consumption.

"I will write you what Dr. Pierce's Golden Medical Discovery has done for me," says George H. Belcher, Esq., of Boston, Pike County, Ky. "Thirteen years ago I was wounded by a falling log, and I have had a bad cough almost ever since with shortness of breath, and I have had to take a great deal of medicine. I have had a doctor change of weather would cause the cough to be so bad I would have to sit up at night. Could not rest or sleep at times; was all right down, could not work at all. A few months ago I began to get better. I took two bottles and now can rest and work, and I feel like a new man. I cannot find words to sufficiently recommend Dr. Pierce's Golden Medical Discovery, or tell the good it has done me."

Dr. Pierce's Common Sense Medical Adviser in paper covers is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. The book has 1008 pages and over 700 illustrations. Address Dr. R. V. Pierce, Buffalo, N. Y.

Four years later he and Mr. Adams removed to this city where they have since conducted a successful business in men's furnishing goods.

Andrew Carnegie, the multi-millionaire

laid of Skibo castle, will not give any more money to the Ogden library, but with \$250,000 contributed by him, unless the city shall raise more by taxation.

Some time ago a letter was sent to him by a rector of the board of trustees of the library. In this letter it was explained that all the money donated by him had been used in erecting the building, leaving nothing to purchase books, and that as a consequence the library was not of the service which it should be to the community. A large letter has just received by J. A. Howell, secretary of the board, from the private secretary of Mr. Carnegie, in which it is stated that the philanthropist would not advance anything under the circumstances unless the library it was with the agreement that the city raise \$100,000—50 per cent of the cost of the building—each year for maintenance.

The board will meet again Wednesday to pass on all the outstanding bills, as the school year closes on that date.
